8:30	
8:45	
9:00	
9:15	
9:30	
9:45	
10:00	

Small Boat Membership Summer Guidelines

- Team programming has priority on equipment use and dock space
 - Each session above has a general description of small boat availability, as well as the dates that program is running
 - If you are rowing you should launch after the team program has launched to avoid dock congestion. Please also return in time for the following team session to use equipment
 - Remember that most afternoons and evenings the lake is not suitable for rowing small boats due to motorboat traffic
- Please Note:**
- The Advanced Small Boats and Intro to Small Boats sessions will be using all 2-s and 2xs every day, as well as most of the singles. Some maas singles may be available during the Adv Small Boats session
 - The ECM Tues/Thurs morning session is only during August, so the 5-7am time slot on T/Th in July is a great time to enjoy small boats
